

# Xi-Pad 3S

The desktop terminal for up to three smart cards

## > Compact terminal for multi cards application

- Based on a new generation 32-bit platform, the Xi-Pad 3S is the best solution for application with 2 or 3 cards at the same time.
- Compact and heavy, the Xi-Pad 3S is very stable on the desk. The cards can be handled easily.
- Its simple interface allows maximum effectiveness for PC linked application.
- The Xi-Pad 3S is the reference reader in French chemist's shops where reliability and performance are the two main requests.

## > User benefits

- The Xi-Pad 3S is simple, compact and extremely stable with a high level of performance.
- Le Xi-Pad 3S is the preferred solution for French pharmacists. It is recognised by all users as the problem free solution.
